In order to implement School-wide PBIS, Vermont schools must be “ready” according to the VTPBiS Readiness Checklist (found at [www.pbisvermont.org](http://www.pbisvermont.org)). This workshop is designed to offer readiness strategies so that school teams will meet the necessary prerequisites for implementation.

The agenda will include benefits and misconceptions about PBIS, the specific steps involved with School-wide PBIS, strategies for staff buy-in, systems for data-based decision making and action planning for “readiness”.

**Who should attend?** Participants **must** attend as school teams including the building administrator.

**Fee:** \$70 per person
